

Salvation Stories

SALVATION IS A "BEFORE AND AFTER" EVENT!

Salvation Story: Mohana

My mother was working as a staff nurse. She was promoted to grade 2 superintendent in a government hospital. My dad was not a good father. He was making lots of complications in the family. He passed away without accepting Christ. I had a wonderful grandmother until we accepted Christ. After accepting Christ, she didn't speak to us properly. Before her death, for a month, she did not get in touch with us. She too passed away without knowing Christ. I have one younger sister and brother.

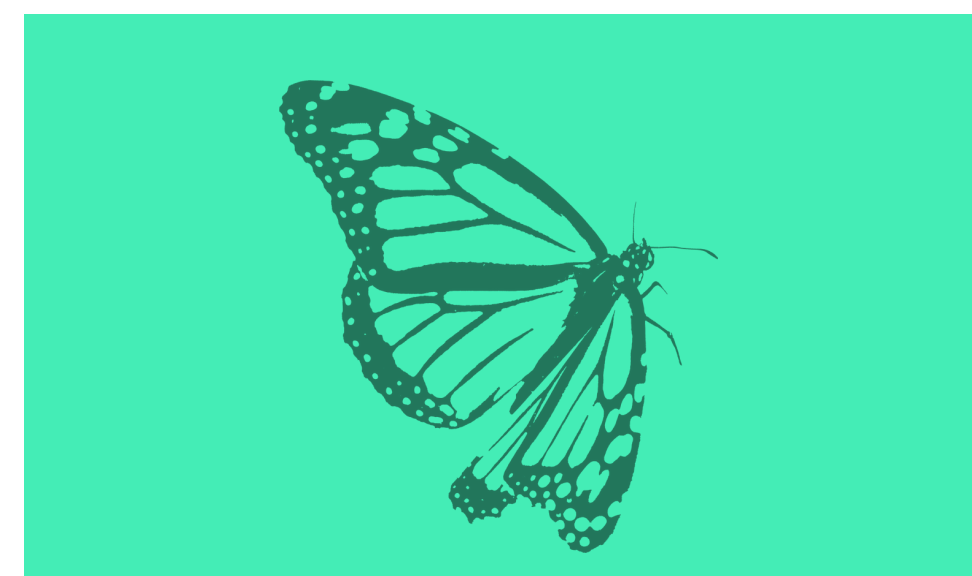

We came to know Christ through my school teachers. They became friends with my mother. They used to visit our home regularly, pray for us, tell us stories from the Bible and they gave us Bibles. My mother invited them for prayers when I was in 10th grade. My teachers were leaving so they introduced us to a lady from a local church.

It was a big decision for my mother. My mother, sister, brother and myself were baptized in 2006.

I gave my +2 exams and had arrears after attempting several times. Finally with one prayer, "Lord I am weak, please be my strength and help to finish this arrears" I wrote my exam in one fasting prayer. I waited for the results. I got the results that I am through. Along with my church, I participated in fasting prayers for 21 days.

My pastor said he got a prophecy that I am called to ministry. From then I decided to go on for a Bible college, finished BTH from New Life college without any arrears, and also finished a masters from SAIACS. Due to the financial crisis I thought I would just finish two years of MA (UOM), and quit. My mother asked me to finish the third year as well. I told my mother that if you do not pay a single Rupee I will go. In the same week Dr. Prabhu Singh {principal of SAIACS} came and spoke to me saying that he will take care of my fees and asked me to continue my studies. This was really a step of faith. God assured me of my calling. The miracle was my third year fee was also completely taken care of, and half of my second year fee too. Through a sponsor. God also provided

Salvation

money for my expenses.

After my graduation, I wanted to go on missions, but my mother, a single parent, was scared to send me anywhere. I was actually locked up. She asked me to get married and go anywhere. I had a very good ministry exposure working with Dr. Atul Aghamkar for almost one year and then resigned due to my marriage process.

And now by the grace of God, I am married. My husband works as a Forex Trader, and is into other businesses. He also graduated from Baltimore Greater Grace Bible College. Along with the church He goes on field trips and street evangelism through the church. God sent the right one as my life partner.

Marriage was one more huge ocean to swim. After marrying and having kids, there were a lot of struggles at the in-law's place. Even though I am a Christian and a student of the Bible, I fell into this worldly trap and tried to commit suicide. My life's goal mission had completely worn off. I was so depressed. In 2024, my prayers were heard and I realized that God was preparing me mentally to be in ministry. I got the opportunity to work with WIFM. I tried to work in secular fields, but it was not God's calling in my life and I did not find peace in working in secular fields.
